"If it's from Meyers it'll grow." The Meyers Nursery has enjoyed a successful nursery business for over 25 years in Waterloo. It is recognized that this success has resulted from the maintenance of high quality stock and service. We are constantly alert to recognize and adopt improved methods and the best of the new plant introductions. The state nursery inspectors carefully examine our stock and a Certificate of inspection accompanies each order.

SELECTION OF STOCK

Our catalog is not merely a list of plant varieties for sale, it is our recommendation to our customers. Every effort is made to make the catalog a helpful and dependable guide to your planting needs. We have selected what we believe to be the best varieties for the vigorous climate of Northeastern Iowa. These recommendations are based on an experience of over 25 years of growing and planting all kinds of plant material. Consequently, this catalog does not list all of the varieties or sizes available at the nursery. If you do not find listed the variety or size you desire please ask for it. We probably have it, or can get it for you.

ORDER EARLY

Place your order early. The early order has the advantage of being filled while the stock is still complete. Season after season the large demand has taken an unpredictable course and exhausted certain varieties long before the season was over. Play safe and get your order to us as early as you can, and we will reserve the stock for you until planting time. You can then come to the Nursery and select your own stock or we will deliver it to you if you live in or near Waterloo or Cedar Falls. No order delivered for less than \$2.00, although we will fill orders of any size at nursery.

Stock not marked postpaid will be shipped as directed by purchaser, charges, collect, outside these cities.

TERMS OF SALE

You can send us payment in full with the order by money order or check. Or you can send us one fourth with order and we will collect balance on delivery. If you prefer you can send or phone us your order and we will send C. O. D. for entire amount of the order. If you send your order with payment in full by March 10th, you may deduct 10% from the amount of the order. If sent by March 30th, you may deduct 5%.

LANDSCAPE SERVICE

We will be glad to help you plan all kinds of landscape work, and give you free estimates on any work you want done.

CUSTOMERS WELCOME

The Meyers Nursery is located on Hi-way 20, one block east of St. Francis Hospital. Customers are welcome to come and select their own stock. Open week days from 8:00 A. M. to 9:00 P. M. and Sundays during April and May until 6:00 P. M. The Highland bus line comes to St. Francis Hospital which is only one block from the Nursery. Do not expect us to do any digging on Sunday.

PRICES ON LARGE QUANTITIES OF STOCK

If you are in need of considerable amounts of stock, please contact us, as we can often quote lower prices than those listed in catalog on larger quantities of stock.

OUR NURSERY GUARANTEE

We guarantee our nursery stock to reach you in live-growing condition. If for any reason it is not satisfactory, notify us within 5 days of receipt and we will replace it at once. After that time we replace at half the current price any stock that fails to grow during the first growing season. However, we must be notified by Oct. 1st.

HARDY FRUITS FOR IOWA

Apples

EARLY VARIETIES

Anoka—Generally bears next year after planting. Fruit is yellow streaked red. Ripens in August but can be used a month earlier.

Beacon—This new apple originated at the Minnesota Fruit Experiment Station and is much better than Duchess. The fruit is large, solid bright red of very fine quality. It ripens in August but can be used weeks before.

Yellow Transparent—The favorite early apple. Ripens in July. Bears young, heavily and every year. Fruit is medium size, tender, juicy.

Red Duchess—Top of the list for summer cooking apples. Fruit large, good flavor; hardy everywhere. This is the improved, solid-red strain of the popular Duchess.

FALL VARIETIES

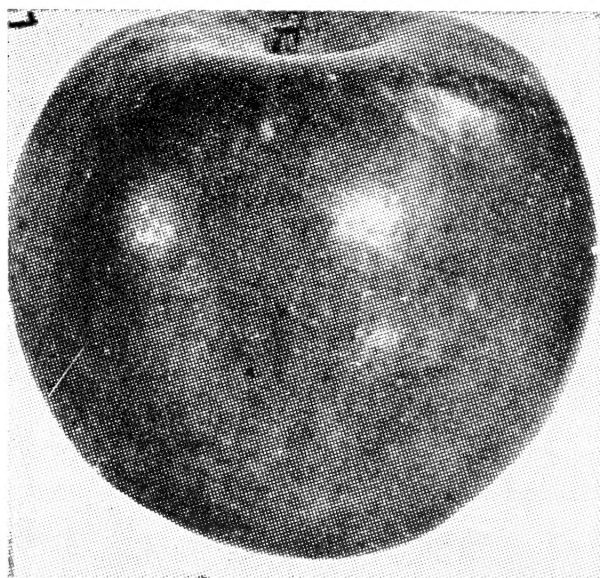

Wealthy—The grand fall apple that does well everywhere. Large size fruit, striped red, tender, juicy, excellent quality. Fine for eating fresh or cooking. Bears young and heavily.

Fameuse (Snow)—Crimson striped apple, with pure white flesh, juicy and of highest quality. October.

WINTER VARIETIES

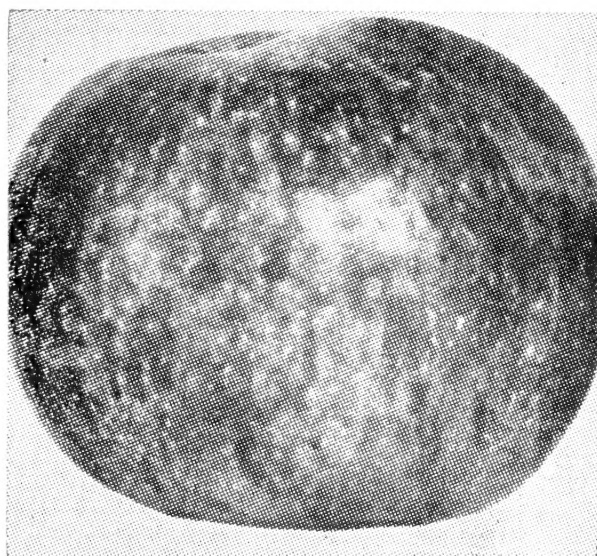

Prairie Spy—Very hardy, very fine new apple for the North. Large red fruit,

Min-Jon—The brand new, four-star "Minnesota Jonathan", originated by

exceptionally fine quality, with crisp juicy flesh that has a distinctive, almost nutlike flavor.

Yellow Delicious—This is now the most popular yellow apple in all America. It bears young and heavily, the fruit is large, juicy and no apple has a finer flavor.

the Minnesota State Breeding Farm. It produces beautiful, luscious apples way up to the Canadian line. Dark shiny red all over, with yellow, crisp flesh—so good to eat fresh or cooked. Heavy bearer; fine for home and market. Be sure to include Min-Jon.

Tolman Sweet — Favorite sweet apple. Light yellow fruit somewhat blushed; flavor very fine. Good keeper.

WINTER VARIETIES (Continued)

Red Delicious—This is the original Delicious which originated in Iowa and has been planted from coast to coast for its superb quality and mild juicy flavor.

McIntosh, Solid Red—This large red apple is especially popular in the east, and also in sections of other states. Flesh Snow-white of very high quality.

Sharon—You will like this fine new apple, and it is entirely hardy, too. Large, uniform fruit, yellow striped red, quality and flavor outstanding. Young, heavy bearer.

Jonathan—Almost everybody knows it and likes it. A fine bright red apple of highest quality with crisp, yet tender flesh. Juicy and full of snap.

Haralson—Large good red apple that keeps all winter. Heavy bearer, very hardy.

Edgewood was originated at Ames. It is very similar to Jonathan in shape, color and flavor. Later ripening and keeping longer.

Fireside—A hardy and productive tree of the Delicious type equal to it in quality. Suitable for northern sections.

CRAB APPLES

Whitney—Always called a Crab, but as large as some apples. Red striped fruit of excellent flavor, not tart. Makes delicious pickles and butter. Bears young and heavily.

Virginia—Supremely hardy tree that is in great demand these days for top-working with large apples. Bears huge crops of light red, medium size Crabs that are sprightly and juicy.

6 HARDY VARIETIES OF APPLES ON 1 TREE!!

This 6-in-1 Apple Tree has six different kinds of apples, all on one tree. They are six of our best, most popular kinds, giving you fruit from early summer well into the winter.

Yellow Transparent, for summer.

Wealthy, for all.

Yellow Delicious, for late fall.

Solid Red Delicious, for early winter.

Bright Red Jonathan, for the holidays.

Winesap, for winter.

Yellow Transparent and Yellow Delicious start bearing young, followed by Wealthy and soon all are bearing, all on the same tree. This is the one tree for those who want several kinds of apples, but do not have much ground available. With its flowers, rich green foliage and fruit, it is attractive enough to plant in your front yard.

2-Year Trees, 4 to 6 feet tall Each \$3.25, 2 for \$6.00

Plums

GIANT FRUITERS

We take pride in offering these NEWEST, FINEST, HARDIEST, PLUMS—and most of them start bearing the next year after planting. Use several varieties in your clump to get the biggest and best crops. Include a Superior or a Toka, as they are excellent pollenizers.

Ember—Large fruit, flame yellow to red, with rich, meaty flesh of grand quality and flavor. A late plum and one of the finest.

La Cresent—Outstanding yellow plum. The big, tender, sweet fruit makes delicious preserves and pies. A favorite fresh fruit.

Pipestone—The grand big, new purplish-red plum from Minnesota, as large as

tropical fruit but all hardy. Finest quality; excellent for canning or eating fresh. Bears young and heavily; ripens in August.

Red Coat—Big prune-shaped plums of vivid scarlet; rich, juicy, meaty flesh of delicious flavor. Entirely freestone. Tremendous cropper.

Waneta—Juicy, medium sized fruit of rich, fine flavor; dark purple skin and

PLUMS — (Continued)

flesh. Excellent for canning. Bears enormous crops.

Superior—A plum that should be in every planting. Immense fruit of clear rich red, firm meaty flesh of rich, delicious flavor. Can be peeled as you would a peach. Ripens early in August. One of the finest for the home or market. A good pollenizer for other plums.

Toka—Highly prized for its rich apricot flavor. Large, firm, orange-red fruit; early and heavy bearer. Excellent pollinizer.

Pears

Pears grow in any ordinary soil, even in sod, right in your yard. Plant 20 feet apart. Two trees, alike or different varieties, planted near each other so they can cross-pollinize, will both produce more heavily than if planted alone.

Patten—Originating in Iowa, this is a very hardy Pear which can be planted in cold sections like northern Iowa, Minnesota, etc. Ripens in August. The fruit is large, yellow with blush, juicy, sweet, luscious flavor. Good bearer. Very blight resistant.

Bierschmidt—A new summer Pear ripening a few days after Bartlett. Originating in Northern Iowa, it is hardier than Bartlett. Good bearer. Highest quality. Blight resistant.

Parker—A new summer pear ripening a few days after Bartlett. Tested in Northern Iowa, it is hardier than

Bartlett. Good bearer. Highest quality. Blight resistant.

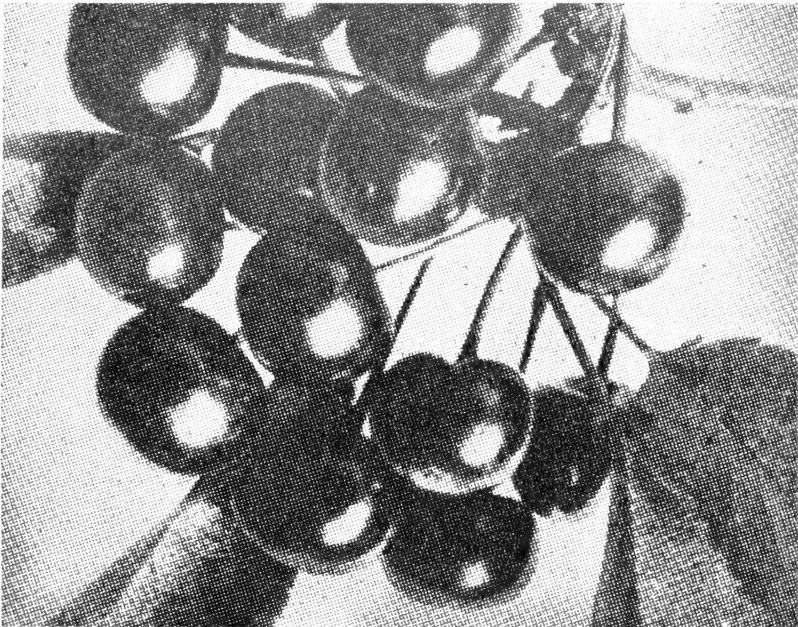

Kieffer—The most widely planted winter Pear. A healthy, hardy and vigorous grower which bears young, heavily and regularly. The fruit is large and fills countless jars every season. Pick the fruit when it starts to color and let it ripen in a cool, dark place. Then it is delicious. Blight resistant.

Bartlett—Our most popular summer Pear. Fruit is large, yellow with blush, juicy, sweet, high quality.

Hardy Russian Privet—(Amoor River North)—If you do not know what hedge to plant, we recommend this very high-

ly. It is by far the most popular hardy trimmed hedge in the northern states. It makes a permanent hedge, lasting for generations. Not only adds beauty, it also protects your yard especially if you have a corner lot. It is fine for a division line between yards. Can be trimmed to any desired height, making a thick, dense hedge, without thorns right down to the ground. Requires trimming only twice during the summer. But if you trim it 3 or 4 times, it becomes more dense and bushy. Leaves are rich, dark green and hang on until very late fall. Plant 1 foot apart.

Each\$1.35

FLORIBUNDA

Betty Prior—Patent No. 340. Produces large fragrant clusters continuously throughout the season. Opens lively red turning to shell-pink. Desirable for mass plantingEach \$1.15

Chatter — Patent No. 739. Unusually bright crimson, generous flower clusters, continuously in bloom, velvety firm petalsEach \$1.25

Donald Prior — Patent No. 377. The large flowers are semi-double bright scarlet, flushed crimson, fragrant. Free floweringEach \$1.15

Else Poulsen—Floribunda—Bright rose-pink, semi-double.....Each \$1.15

Gruss An Aachen, Floribunda—Light rose overlaid with yellow. Double and

almost as large as a Tea ..Each \$1.15

Geldilocks (P. P. 672)—The first bright yellow floribunda. Fully double fragrant flowers in clusters from late spring to freezing. 24 inches tall.
Each \$1.25

Pinocchi (P. P. 484)—Clusters of salmon-pink flowers all through the season. About 2 feet tall.Each \$1.25

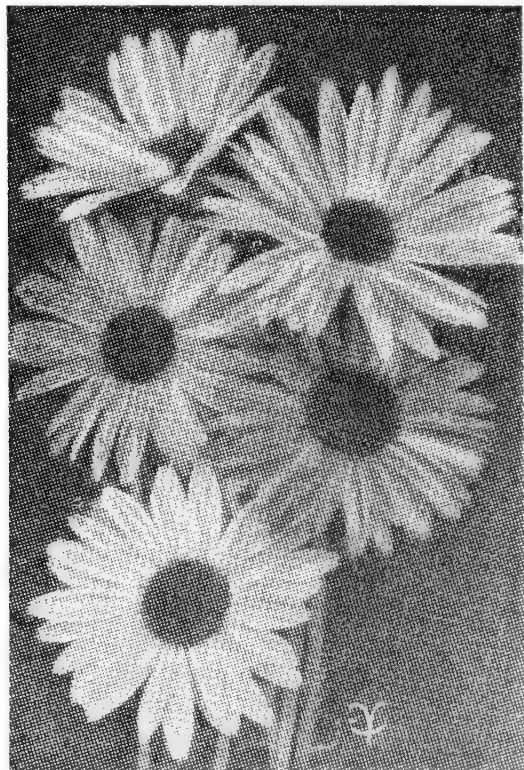

Red Pinochhio (P. P. 812)—Clusters of lovely flowers, carmine shaded scarlet. 20 inches tallEach \$1.75

World's Fair (P. P. 362)—The first rose to win AARS award. Especially fine in a bed or border. Flowers are 3 to 4 inches across, velvety deep crimson. 24 inches tallEach \$1.50

Hardy Perennials

The measure given is the average height, and the dates, the blooming periods. Most perennials can be moved well either fall or spring, and many of them through the summer. Plants one foot or under are usually suitable for some place in the rock garden unless too sensitive. Special cultural requirements are briefly noted.

*Prices, unless otherwise noted: Field-grown plants 35c each, \$3.00 for ten—3 for \$1.00.

Asters, Hardy—Stalwart or Michaelmas Daisy. Sept.-Oct. Harrington Pink, a selected strain of compact bushy growth. Clear rose-pink flowers. 3-4 ft.

Red Rover — The first red fall Aster. Deep rosy red flowers with golden centers; buds bright red. Free blooming, compact habit. September to frost 2 to 4 ft. **Each 50c**

Mt. Everest — Finest and best white. Very tall, well shaped, pointed pyramids, with an abundance of lateral growths which flower right down to the ground. 3 to 4 ft. . . . **Each 50c**

Beechwood Challenger.—The nearest approach to red so far in Hardy Asters. Free-flowering, medium height, about 3½ feet. Early fall. Profuse bloomer with brilliant crimson-red flowers.

Each 50c

Blue Gem—Large lovely flowers with a yellow center, double flowers. Best blue in cultivation. September until frost. 3 to 4 feet **Each 50c**

Aquilegia, Columbines—Not particular as to soil, endures some shade.

Dobbies Imperial Hybrids—3 feet. mixed colors. Long spurred.

Separate Colors, Your Choice			
Blue	Red	White	
Pink	Yellow	Copper	

Bleeding Heart—The long, graceful branches are lined with dainty heart-shaped flowers, bright red-and-white all during May and June. Easy to grow—extra hardy, does well in either sun or partial shade. 2½ feet tall.

Each 69c **3 for \$1.49**

P2—Everblooming Bleeding Heart. (Dienentra eximia)—Handsome fernlike foliage; lovely clusters of pink flowers the season through. Does well in sun or shade. splendid for rockery or flower garden

Each 60c **3 for \$1.65**

Creeping Phlox (Subulata)—These grow scarcely four inches tall, with moss-like foliage that stays green all winter. In the spring, completely covered with flowers. Thrives in sun or part shade. Blue Pink Red White

Carnation—Dwarf 15 in.; compact, double flowers. State variety.

Red King—Bright red.

Pink Beauty—Soft pink.

Puff Ball—White as snow.

Canterbury Bells—Big, bell-shaped flowers loading the 2-ft. spikes. Blooms in June. Blue, rose and pink.

Daisy, Alaska—1 to 2 feet, 4 to 5 inches. Flowers all summer and fall.

Shasta Daisy, White Swan—For a long time in late spring and early summer this plant produces great quantities of the double white flowers on long stems fine for cutting. Grows 18 inches tall.

PERENNIALS (Continued)

ORIENTAL POPPIES

Oriental, *apaver orientale*—2 ft. Large orange-scarlet flowers with black centers, May-June.

Oriental, *Olympia*—40c; double free blooming, rich scarlet. Earliest.

Pyrethrum, *Persion* or *Painted Daisy*—2 to 3 ft. tall. All colors, white to deep red.

Sedum *Spetabile*—Most notable of the Erect Sedums, producing a mound of excellent light green foliage, topped with immense heads of handsome rose-colored flowers in late summer and fall.

Fern—*Ostrich, Onoclea truthiopteris*, 2 to 3 feet. Prefers part shade and leaf mold but will endure almost any situation.

Gaillardia, *Blanket Flower*—1 to 2 ft. Flowers have red, yellow, and orange blended.

P150 *Gypsophila* (*Baby's Breath*)—2 to 3 ft. Great masses of small white flowers in July-August. Lovely in the garden and fine for cutting.

P151 *Gypsophila, Oldhamiana*—Great masses of small light pink flowers. August to frost.

Hollyhocks—6 ft. towers of blooms, with big, double flowers all summer. Red, pink or yellow. State color.

Lilium, *Lilies*—Mostly require well drained soil.

Elegans—2 ft. Orange-red. May-June. Drained, deep soil. Easiest to grow. Depth to plant, 5 inches.

Regale, *The Regal Lily*—Large white trumpets shaded pink. July. One of the best. 9 in.

Tenuifolium, *Coral Lily*—1½ to 2 ft. Waxy, recurved, coral red flowers on slender stems. May.

Tigrinum, *Tiger Lily*—3 to 4 ft. July-August. Orange spotted black. 9 in.

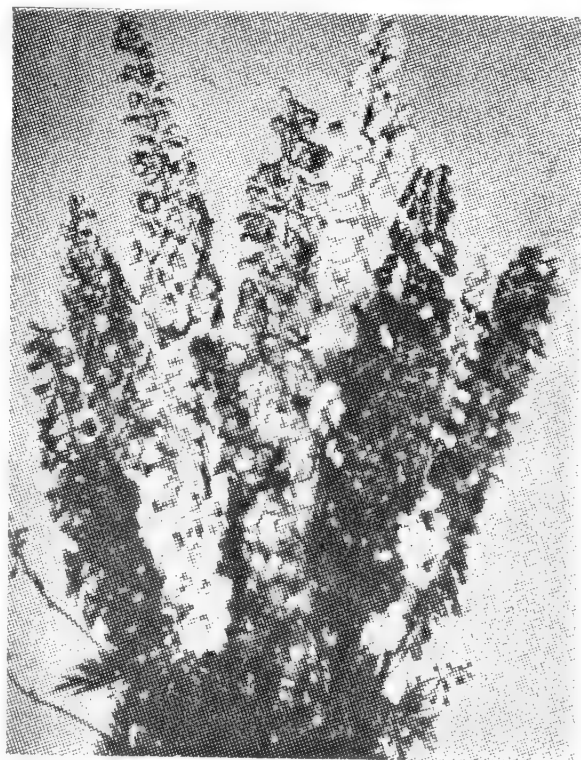

Linum *perene*, *Hardy Flax*—1 to 2 ft. Light, graceful foliage and stems. Pale blue flowers each morning. June-September if cut down occasionally.

***Lychnis Chalcedonica* (*Maltese Cross*)**.—Very fine and durable, old-fashioned flower with dense heads of flashy scarlet throughout midsummer.

***Scabiosa Caucasica*. (*Pin Cushion Flower*)**—Exquisite, azure-blue flowers from June to September Grand border plant.
50c Each

Platycodon grandiflora*, *Ballon Flower—2 to 3 ft. June-October. Large ball-shaped flowers, either blue white or pink. Inflated ballon like buds.

YUCCA filamentosa*, *Adam's Needle—4 to 6 ft. Tall pyramidal clusters of large creamy flowers; June-July. Heavy 3-years plants, 50c; 2-year, 35c.
*Prices unless noted: 35c each, \$3.00 for ten, 3 for \$1.00.

Delphinium, Pacific Hybrids—The flowers are immense, 2½ to 3 inches across. The colors range from pure white, sky-blue to deepest indigo-blue, purples, violets, and those exquisite shades of orchid-pink. The plants grow 4 to 7 feet tall with flower trusses often 3 to 4 feet long.

50c Each

PERENNIALS (Continued)

Delphinium, Larkspur—All like limestone soil and good drainage.

Belladonna—2-4 ft. Light blue, all summer.

Bellamosa—2-4 ft. Like above but dark blue, all summer.

Chinese Blue—1-2 ft. Finely cut foliage. Gentian blue, all summer.

English Hybrids—4 ft. or more. All shades, each plant distinct.

Dictamus Ruber, Gas Plant, 45c—2½ ft. Rosy purple, veined darker. Strongly aromatic. Very permanent in rich well drained soil.

Hardy Ageratum—Lovely light purple-blue flowers of fluffy texture from August until frost; fine for cutting. 12-18 inch.

Mountain of Gold — (Euphorbia polychroma). During May and June the formal, 1-ft. mound is crowned with bright lemon-yellow, rose-shaped flowers. Beautiful foliage throughout the summer.

Each 50c

Lythrum

The Beacon Lythrum—Has neat long-lasting spikes of large clear, deep-carmine flowers, followed with side spikes almost to the ground. Interesting foliage, blooms from July till frost. 2 feet.

Morden Lythrum—It's beautiful—it's hardy — it's grand. Throughout the summer there is a continuous succession of lovely rose-carmine spikes that are ideal for cutting. Originating in Canada, it is completely hardy, thrives everywhere. Plant grows 3 ft. or more tall.

Dropmore Lythrum — New hybrid, deeper in color than the Morden type, and grows about a foot taller. Often a single plant will produce 12 or more 3-foot spikes of bright rosy-red, lasting a month or more.

Above 3 Lythrum, 50c each; 3 for \$1.25

Heliopsis—Handsome large, nearly double flowers of richest golden yellow nearly all summer. Hardy, easy to grow—the 3-ft. plants making a vivid show in the border.

Monarda— (Haremint). Fringed flower heads of blazing scarlet appear on 20 to 30 inch stems in July and August; foliage somewhat aromatic.

Perennial Sweet Pea — (Lathyrus).—Hardy creeper or climber, with lovely clustered flowers, pink to rose-red, throughout the summer. Fine for cutting.

Physostegia—Summer Glow. Perfected type of False Dragonhead. Colorful, clustered, 18 inch spikes of rosy-crimson on towering 4-ft. stems. August to September.

Purple Coneflower (Rudbeckia purpurea).—Showy, tall border flower, its rich rose-purple petals surrounding a large brown cone. July to October 3 ft.

Shasta Daisy—Early Glistening white flowers in countless numbers during June are a beautiful sight in the garden; grand in bouquets. Mature growth about 15 in. tall.

Statice — (Sea Lavender) — Leathery leaves hug the ground, topped in August and September with spreading feathery sprays of tiny, purple-blue flowers.

Stokesia (Stokes' Aster).—We highly recommend this as a border plant. Beautiful aster-flowers of lilac-blue are in abundance nearly all summer.

Lupinus polyphyllus (Lupine). — Extremely handsome perennial with beautiful palmate foliage and long spikes of brilliantly colored pea-shaped, well-drained spots with soil that is not too rich and free from lime.

Blue Shades

Rose Shades

Red Shades

Mixed Shades

Anchusa—These rank among the best blue summer-flowering plants.

Italica, Dropmore—Very showy and effective in borders. Brilliant royal blue, 4 to 5 ft. July.

Myosotidiflora—Produces sprays of turquoise-blue flowers resembling forget-me-nots. 1½ ft.

Each, 50c

Sweet William — These brilliantly colored old-fashioned garden plants are as indispensable today as they were 100 years ago.

Pink Beauty — A sparkling crushed strawberry-pink.

Scarlet Beauty—A vivid scarlet. Very choice and effective. 1½ ft.

PERENNIALS (Continued)**HEMEROCALLIS**

The New Hybrid Day-Lilies—The demand for Day Lilies has grown by leaps and bounds. They are so hardy, easy to grow; they bloom so freely **EVEN IN SHADE**, and last a lifetime. Plant 18 to 24 inches apart in ordinary garden soil, sunlight or shade, their crowns an inch or two below the top of the ground. Mulch through the first winter.

(All strong, blooming-size plants.)

Dr. Regel—Most beautiful, early flowering Day Lily. Rich orange-yellow flowers, very fragrant, in May and June are fine for cutting.

30c each; 3 for 75c, postpaid

Gold Dust—Very lovely golden yellow trumpets clustered on long, slender stems. Ideal for light shade or edging shrubs. May-June.

30c each; 3 for 75c postpaid

Hyperion—Immense, flaring blooms of primrose-yellow, delightfully fragrant, are borne in great numbers on stout, 40-inch stems; excellent for cutting. July-August

Each \$.75

Kwanso—Unique, double-flowering Day Lily. Handsome flowers of bright orange. One of the best for cutting.

25c each; 3 for 65c, postpaid

August Pioneer—3 feet orange with a delicate flush of red. Mid-August to October. Profuse bloomer.

Each 50c

Bijou—2 feet. Small clustered flowers, orange over-laid with rich fulvous red June-July.

Each 75c

D. D. Wyman—2½ feet. July-August, golden-yellow, tawny splashed petals.

Each 40c

Gracilis—18 inches. Grass-like foliage. Clear yellow flowers in early June, and again in the fall if not allowed to make seed.

Each 40c

Lemoni—4 feet. Stiff upright stems with large pale lemon-yellow flowers closing in hot sunshine.

Each 50c

Mrs. W. H. Wyman—4 feet. Large, light pale lemon-yellow. August. One of the latest, best and most prolific.

Each 40c

Margaret Perry—50 inch. The forerunner of a new race of Hybrids. Carnelian red flowers with a bright yellow star at the throat, which continues out to the tip of each petal in the form of a conspicuous narrow yellow stripe. July to September.

Each \$1.00

Mikado—3 feet. A handsome new fragrant large flower of rich orange, with conspicuous deep mahogany-red throat.

Each 50c

Bagdad—42 inch. One of Dr. Stout's newest creations just being introduced. A gay combination of several colors, orange red, yellow, and madder brown. June.

Each \$1.00

Ophir—50 inch. Deep, golden yellow, trumpet shaped flowers 5 inches across, borne 25 to 30 to a stem during July and August.

Each 50c

Hardy Chrysanthemum

Your Choice All Mums listed below, Alike or Assorted

Each 50c, 3 for \$1.25, 6 for \$2.24

Algonquin—Fine, brilliant, double yellow. Mid-September. 18 inches.

Amber Glow—A 2½ inch flower of soft salmon or peach pink. Flowers very profusely. Blooms October 5.

Avalanche—Large Well formed double white flowers in great quantities. 2½ to 3 feet. Late September.

Burgundy—Rich deep red. Fully double. Perfect form. Early October. 2½ feet.

Clara Curtis—Produces great masses of fragrant pink, daisy-like blooms. Early September. Single 2 ft.

Early Bronze—A remarkable early flowering Pom. Pom. Its flowers of beautiful orange-bronze in full glory in September.

Ember—A brilliant glowing bronze. Flowers 2½ inches in diameter, in mid-October. Height. 2½ feet.

Harbinger—Double 2½ to 3-inch flowers of golden bronze. Grow 27 inches tall.

Red Gold—Double 2-inch flowers of bright golden orange suffused red. Grow 22 inches tall.

CHRYSANTHEMUMS (Continued)

Red Velvet—Double 3-inch flowers of crimson. Grow 24 inches tall.

Robert Brydon—Fine new cushion type with double 2 to 2½-inch flowers of rich crimson. Grow 18 inches tall.

Rose Glow—Lovely raspberry, rose-pink blossoms in glorious profusion from September on. 2 feet.

CHRYSANTHEMUM—CUSHION

A group of low-growing 'Mums, forming mounds of blooms, reminding one of the old-fashioned Azalea. The plants grow from 10 to 15 inches high and have a spread of from 2 to 2½ feet. The flowers appear early in September and remain on plants over a long period.

Bronze Cushion (King Cushion)—deep Autumn tints of bronze and copper.

Pink Cushion (Amelia)—masses of light pink flowers in broad mounds.

Red Cushion—A splendid early crimson red variety.

White Cushion (Queen Cushion)—Extra fine early pure white.

Yellow Cushion—Pure golden yellow; early flowering and long lasting.

CHRYSANTHEMUMS**Recent Introductions**

Autumn Lights—Coppery bronze, semi-double blossoms with a gleaming orange overcast, cover the compact branchy plant. Height 1½ feet.

Caliph—For intensity of color, this variety cannot be equaled. The color is oxblood-red, with a rich velvety sheen or glow so prominent that it stands out conspicuously among all other Chrysanthemums of this color.

Chippewa—Absolutely distinct is the new rich Aster-purple color and it's an early blooming, free flowering, bushy, 2-ft. plant.

Polar Ice—A pure white, double flower of 3 inches. Grows vigorously, flowers freely, and bunches nicely. Early September.

Little Eskimo—Pure white, ball shaped flowers 1½ inches in diameter that do not fade to pink. August and September.

Orchid Jewell—Small compact sprays of light orchid pink flowers on 24 inch stems. Late September.

Pearl Harbor—A remarkably early flowering PomPom. Its flowers of beautiful orange-bronze in full glory in September.

Pygmy Gold—A distinct, fine Pom Pom type. The color of a clean golden yellow. Early September.

Lavender Lady—A lovely true lavender, no trace of mauve, purple, or magenta appears under any light condition. Flowers are full, double, 3 inches across. Early October.

Mrs. P. S. Dupont—Double. The dominant shade is a soft peach tinge, blended with mauve undertones. 2½ feet.

September Gold — Double. Brilliant golden yellow blossoms. Plants 1½ feet in height, of cushion habit of growth.

White Knight—A clean white symmetrically shaggy flower. The largest double white. It appears on a loose upright bush. Flowers are early, starting in mid-September.

Chrysanthemum—Hardy, early blooming varieties from Minnesota. All field grown plants.

Each 50c

Butterball—30 inch double. Large lemon-chrome.

Dahlia—20 inch double, wine red. September 10.

Duluth—36 inch double, yellow. September 20.

Early Harvest—20 inch double, bronze red. September 7.

Eugene Wander—18 inch double, bright early yellow. August 25.

Glacier — 20 inch double, large pure white lowers. September 2.

Moon Glow — 20 inch double. A very good real early yellow.

Sept. Bronze—24 inch double, Golden Bronze. Very good. September 2.

Sun Red—30 inch semi-double. Bright red petals. September 15.

Polar Ice—A pure white, double flower of 3 inches. Grows vigorously, flowers freely, and bunches nicely. Early September.

Linden—American Tillia Americana.—60 to 80 feet. Large leaves, splendid shade tree.

6-8 feet	Each \$3.50
8-10 feet	Each 5.00

Chestnut, Chinese—25 to 30 ft. Replacing the sweet chestnut which has been almost destroyed by Chestnut blight. It is not quite as large sweet chestnut but generously produces as many and as good nuts. Has proven hardy here.

18-24 in.	Each \$ 1.25
2-3 ft.	Each 1.75

Birch—Cutleaved Weeping—30 to 40 ft. A very attractive ornamental tree with white bark and fine dropping branches.

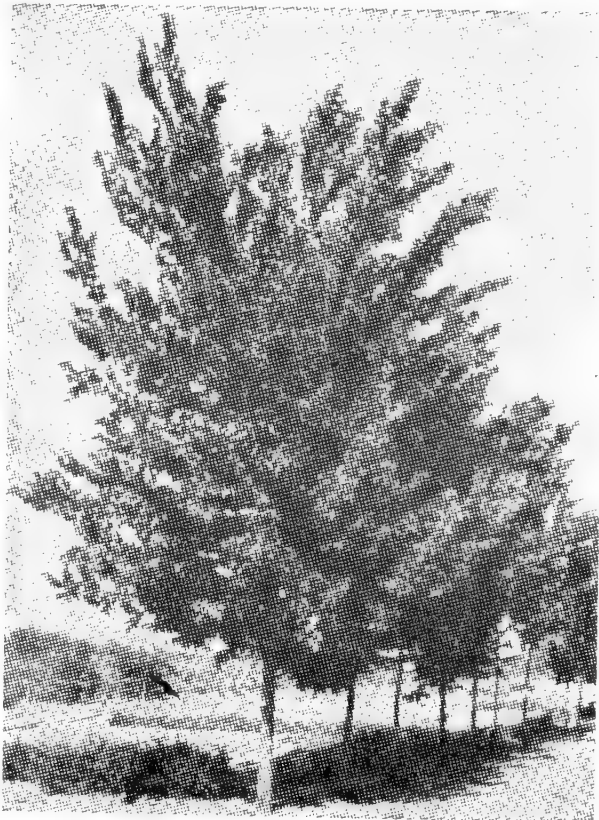

5-6 ft.	Each \$ 4.50
6-8 ft.	Each 6.00
8-10 ft.	Each 9.00

Juneberry, Tree—20-30 ft. Small tree with fine foliage and racems of white flowers in early Spring and edible purplish fruit in June.

2-3 ft.	Each \$ 1.00
3-4 ft.	Each 1.50

Elm—American White—80 to 100 feet. One of the best of all shade trees. Thrives in almost all situations.

6-8 feet	Each \$1.75
8-10 feet	Each 2.50
10-12 feet	Each 3.50

SHADE TREES (Continued)

Larch, European — 50-60 ft. A conifer but not an evergreen. Makes a strikingly beautiful specimen in large landscapes. The foliage is especially beautiful, soft green in spring and soft yellow in the fall.

5-6 ft. B&BEach \$ 8.00
4-5 ft. B&BEach 6.50
3-4 ft. B&BEach 4.50

Pecan—Hardy. A handsome tree deserving wide planting. The tree is perfectly hardy here.

2-3 ft.Each \$ 2.00
3-4 ft.Each 3.00

Magnolia—Soulangeana, Saucer Magnolia—20-25 ft. Very large purplish pink and white flowers before the leaves open. Plant where they get sun and protected from winter wind.

2-3 ft.Each \$10.00
3-4 ft.Each 15.00

Walnut — Black Juglans Niger. 60-80 ft. Walnut produce good shade in summer and having few twigs give very little shade in winter. The grafted varieties listed below produce very choice nuts. Black walnuts do best in deep rich soil.

2-2½ ft.Each \$ 1.25
3-4 ft.Each 2.00
4-5 ft.Each 2.50

Thomas Walnut — Is the best known variety and succeeds over a wide territory. The tree grows rapidly and bears young. The nut is large, hulls out easily, and easily cracks out in halves and quarters.

2-3 ft.Each \$ 2.50
3-4 ft.Each 3.00

Krause Walnut — Is a local variety. Excellent quality, an excellent cracker, and an unusually good bearer. A very heavy producer of pollen.

2-3 ft.Each \$ 2.50

New and Unusual S H R U B S

Aronia arbutifolia shrubs—4-6 ft. Especially desirable for its very brilliant red fruit retained until winter and its deep red foliage in the fall.

18-24 in.Each \$.80
2-3 ft.Each 1.00

Aronia—Melanocarpa. Black Chokeberry — 3-4 ft. A compact shrub with clusters of attractive white flowers in the spring and shiny black fruit in fall. Splendid becoming deep red in fall. Will grow in shade.

18-24 in.Each \$.80
2-3 ft.Each 1.00

Hypericum Aureum — 2-3 ft. Blue green foliage bright yellow flowers in July and August. A fine dwarf shrub.

18-24 in.Each \$ 1.00

Ilex verticillata—Winterberry—6-8 ft. Brightest red berries till mid-winter. Likes wet acid soil and part shade.

18-24 in.Each \$ 1.00

Kerria Japonica — 4 ft. Green stems. Bright yellow flowers over a long season.

18-24 in.Each \$ 1.00

Mountain Laurel—An excellent broad leaved evergreen shrub with masses of pink or rose colored flowers in late spring or early summer. If planted in peaty acid soil in a protected location with shade during the hot part of the day and watered if it gets very dry it will thrive here.

15-18 in.Each \$ 5.00

Ninebark Golden Leaf—4-5 ft. A very hardy shrub having white flowers in May and June. Very attractive yellow foliage.

18-24 in.Each \$.75
2-3 ft.Each .90

Rhodotypus. White Kerria — 4-5 ft. Bright green foliage. Single white flowers in April and May. Black shiny fruit in fall and winter. Tolerates shade.

18-24 in.Each \$.90

Sumac Fragrant. Rhus Canadensis.—4-5 ft. Beautiful aromatic leaves. Coral-red fruit in June. Endures drought. Very brilliant fall coloring.

2-3 ft.Each \$ 1.00

Cutleaf Staghorn Sumac — 6-10 ft. A rapid growing shrub with very attractive long feathery finely cut leaves. Fine for foundation planting in early spring and new canes will take their place. Also good grown in tree form.

2-3 ft.Each \$ 1.00

Witch Hazel—Hamamelis vernalis — 5-6 ft. Blooms in March. Retains green leaves very late.

2-3 ft.Each \$ 1.25

Amelanchier canadensis—Dwarf Juneberry—6-8 ft. A compact slow growing bush. Excellent foliage, racemes of white flowers, early and edible purplish fruit in June. Birds prefer them to cherries.

18-24 in.Each \$.75

SHRUBS (Continued)

Azaleas are "tops" among the flowering shrubs and are not as difficult to grow as most people believe. A location protected from dry winds such as the east side of a building partial shade, plenty of peat and mildly acid soil, will satisfy the hardy kinds listed.

—**A. Mollis**—Clusters of large orange flowers before the leaves. Will bloom first season planted.

—**A. Macromulatum** — The Lavender pink flowers are about the first flowers of Spring. Will tolerate sweeter soil and more sun than other azaleas.

Price of above 2 Azaleas

15-18 in. Each \$ 3.50

18-24 in. Each 5.00

2-2½ ft. Each 6.00

Button Bush (*Cephalanthus occidentalis*)—5-6 ft. **Greenish white globular** flowers. Will do good on very wet soil

and stands hard baked soil.

18-24 in. Each \$.75

Caragana arborescens Siberian Pea—10-15 ft. Soft pea-green foliage, very early, yellow flowers in late May. Endures the driest hard soil in either sun or shade.

2-3 ft. Each \$ 1.00

Cotoneaster Acutifolia, Quinceberry — 5-8 ft. Small pinkish flowers, black berries. Smooth glossy, dark green leaves with brilliant fall coloring. Splendid hedge plant.

3-4 ft. Each \$ 1.50

—**Wilsoni**—3 ft. A horizontally branching shrub with small glossy dark foliage and red fruit. Fairly hardy. **Each \$1.25**

—**Multiflora**—4-8 ft. Gracefully arching branches, snowy-white flowers in May. Brilliant red berries in August. 3-4 ft. Each \$ 1.50

Vegetable and Flower Seeds

We are stocking a complete assortment of vegetable and annual and perennial flower seeds in packets and cartons. The cartons contain about enough seeds for one planting in the ordinary garden. Peas, beans and sweet corn are packed in cartons and sell at 15c per carton. Most other vegetables and flowers sell at 10c per packet. These seeds are furnished to us by the FERRY-MORSE SEED CO. which is one of the largest growers of seeds in the country. All of the varieties we stock are adapted to this vicinity, and are the best strains to be had.

Besides the seeds in packets, we are offering the following seeds in bulk. These seeds are available at the nursery or we will send them to you postpaid anywhere in Iowa, at these prices.

BEANS

Pencil Pod Wax (52 days).
Stringless Green Pod (52 days).

GLADIOLUS

Glad's are one of the easiest flowers to grow and are fine for cut flowers, and make brilliant display in the garden. Plant 5-6 inches deep; 6-12 inches apart, and make several plantings two weeks apart, for a long season of bloom. Our bulbs are all first size. The varieties we list are some of the finest.

10 "Handsome" Glads

Bagdad — Tall growing, large blooms, old rose.

Beacon — Brilliant flame-scarlet, very fine.

Bit O'Heaven—Deep rich orange; one of the best of its color.

King Lear—Early, magnificent, ruffled flowers, reddish purple. Tall, strong spike.

Ethel Cave Cole—Immense light pink of great beauty, often 9 or 10 large, well placed blooms open at one time.

Gold Dust—Very deep, rich pure yellow. New, super-fine Glad.

Margaret Beaton — Beautiful, unusual flowers of clear white with orange red blotch in throat.

Picardy—Large spikes of soft apricot-pink, florets well spaced and many open at one time.

Rose Van Lima—Pure, light, clear rose pink and exceptionally beautiful.

Snow Princess—Extra large blooms of clear white with cream throat.

2 for 18c; 10 for 70c; 25 for \$1.65

6 "Glorious" Glads

Barcarole — Large, beautifully ruffled flowers of salmon-orange; finest of its color.

Casablanca—Superb, new, ruffled white. Bloms large and long lasting.

Chamouny — Handsome light cerise rose. Tall, slender spikes with many open florets.

Black Opal—Finest of the new, very dark reds. Large flowers of rich maroon shaded black.

Blue Beauty—Large, wide open flowers of lovely, clear blue deepening towards the edges.

Camellia—Exquisite flowers of delicate shell-pink on a creamy background. Very large flowers.

2 for 28c; 10 for \$1.00; 25 for \$2.00

LAWN SEED

We offer a special mixture of extra good quality Lawn Seed that we do not hesitate to recommend very highly. We mix only the best grades of seed which insures a good stand of grass. You cannot afford to take chances with your lawn. The best policy is to sow clean seed. We mix two grades of seed, one for ordinary seeding and another for shady spots. One pound of seed will

sow approximately 250 to 300 square feet

"Heavy Sod" Mixture — Price, per lb., \$1.10; 5-lb. lots, \$1.05 per lb., postpaid. By express, not prepaid, or at Nursery —price per lb., \$1.00; 5-lb. lots, per lb., 95c. Ask for prices in larger quantities. **"Shady Spot" Grass Seed**—Prices same as Heavy Sod Mixture.

FLOWERS AND VEGETABLE PLANTS

We will have a complete assortment of vegetable plants; such as cabbage, tomato, peppers, celery, eggplant, etc. Also annual flower plants; asters, snaps, petunias, salvia, marigold etc. These will be transplanted plants in flats, and will be grown from the best strains of seeds. Available at the nursery at planting time.
